PURPOSE: Presentation of a Proclamation supporting the City’s participation in the National Recreation and Park Association’s “Park and Recreation Month” to showcase and celebrate the city and the many services it provides.

BACKGROUND: Each July, we celebrate park and recreation professionals and how they improve the lives of tens of millions of people, making a lasting impact in communities across the country. Park and recreation programs are essential to community health and well-being and help cultivate lifelong friendships, memories and family bonds that people hold dear decades later.

This year’s theme, “Build Together, Play Together,” reminds us of the contributions of more than 160,000 full-time park and recreation professionals — along with hundreds of thousands of part-time and seasonal workers and volunteers who maintain our country’s close-to-home parks.

- **Together,** we’re building and maintaining sustainable parks and green spaces for current and future generations.
- **Together,** we’re building thriving communities focused on health and well-being.
- **Together,** we’re building high-quality programs and spaces accessible and inclusive for all.
- **Together,** we help people play and connect - through yoga, art classes, picnics and more.

STAFF RECOMMENDATION: Proclaim that July 2025 is Parks and Recreation Month in the City of Villa Rica.

MOTION: I move to proclaim that July 2025 is Parks and Recreation Month in the City of Villa Rica.

Proclamation of July as Park and Recreation Month

WHEREAS parks and recreation programs are an integral part of communities throughout this country, including the City of *Villa Rica*.

WHEREAS: Our parks and recreation are vitally important to establishing and maintaining the quality of life in our communities, ensuring the health of all citizens, and contributing to the economic and environmental well-being of a community and region.

WHEREAS: Parks and recreation programs build healthy, active communities that aid in the prevention of chronic disease, provide therapeutic recreation services for those who are mentally or physically disabled, and also improve the mental and emotional health of all citizens.

WHEREAS: Parks and recreation programs increase a community's economic prosperity through increased property values, expansion of the local tax base, increased tourism, the attraction and retention of businesses, and crime reduction.

WHEREAS: Parks and recreation areas are fundamental to the environmental well-being of our community.

WHEREAS: Parks and natural recreation areas improve water quality, protect groundwater, prevent flooding, improve the quality of the air we breathe, provide vegetative buffers to development, and produce habitat for wildlife.

WHEREAS: Our parks and natural recreation areas ensure the ecological beauty of our community and provide a place for children and adults to connect with nature and recreate outdoors.

WHEREAS: The U.S. House of Representatives has designated July as Parks and Recreation Month.

WHEREAS: The City of *Villa Rica* recognizes the benefits derived from parks and recreation resources.

NOW, THEREFORE, be it resolved that July 2025 be designated as Park & Recreation Month in the City of Villa Rica.

CITY OF VILLA RICA

City Council Meeting Agenda Item Cover Sheet

SUBJECT: TA-04-25– Text Amendment to modify the Smoke Shops, Tobacco stores, and Medical Cannabis Dispensaries and definition of Vape Shop.

MEETING DATE: June 10, 2025

DATE PREPARED: May 28, 2025

PREPARED BY: Shaun Daniels, Planning and Zoning Administrator

PUBLIC HEARING: Yes

PURPOSE:

The proposed text amendments aim to regulate smoke shops, vape shops, and tobacco stores by limiting their operation to the C-2 zoning district with a Special Exception. The proposed text amendments will establish separation requirements from sensitive uses, prohibit rezoning within the Central Business District (CBD), and provide clear definitions for vaping products and businesses. Existing businesses will be classified as legal nonconforming uses and must comply with updated standards for future changes. Medical cannabis dispensaries are regulated by state law, and the proposed ordinance requires that any medical cannabis dispensary comply with the state law requirements.

BACKGROUND:

In response to growing concerns over the regulation of smoke shops, vape shops, and tobacco stores, Community Development conducted an evaluation of current zoning regulations. The proposed text amendments address smoke shop-type businesses that are permitted only by Special Exception in the C-2 zoning district. Properties within the Central Business District (CBD) cannot be rezoned to allow for these uses. Businesses must be located at least 1,500 feet from sensitive uses such as schools, childcare facilities, parks, places of worship, and recreational areas where children regularly gather. A minimum separation of 1,500 feet is required between smoke shops, vape shops, and tobacco stores. The proposed amendments also provide clear and updated definitions for vape products, vape juice, vaping devices, and vape shops to ensure consistent interpretation and enforcement.

Existing businesses that meet the definition of smoke shops, vape shops, or tobacco stores as of the ordinance's effective date will be classified as legal nonconforming uses and may continue operating under Chapter III: Nonconformities. Any change or expansion, however, would require compliance with the proposed standards and approval of a Special Exception.

This item was tabled multiple times at the Planning Commission level. During the May 20, 2025, Planning Commission meeting, the Commission recommended deviating from staff's proposed aggregate sales threshold, suggesting a requirement that at least 50% of a business's total display area be dedicated to alternative nicotine products, vape juice, or vape-related products. After

further consultation with the City Attorney, staff recommends setting the sales threshold at 25% of a business's aggregate retail sales for classification as a smoke or vape shop.

PLANNING AND ZONING COMMISSION MEETING MAY 20, 2025: Approval (3-0)*

STAFF RECOMMENDATION: Approval

IMPACT: N/A

City Council Meeting Agenda Item Cover Sheet

SUBJECT: Developmental Regulations Update – Water and Sewer Capacity Requirements

AGENDA DATE: June 3, 2025

DATE PREPARED: May 28, 2025

PREPARED BY: John Bain

GL ACCOUNT #: N / A

BUDGETED ITEM? N / A

PURPOSE: To amend Appendix A – Developmental Regulations of the Code of Ordinances of the City of Villa Rica Georgia, Section IA, Section 200

BACKGROUND: The City recently updated Sections 200, 202, 203, and 212 of the City’s Development Regulations, requiring an approved water and sewer utility capacity availability letter prior to the approval of any applications for rezoning, annexation, special use permits, building permits, land disturbance permits, or approve any residential construction or any commercial development without a statement that adequate utility is available. While this inclusion was necessary, staff has identified an opportunity to make the process more efficient for residents requesting a couple specific approvals.

As currently written, home occupation business licenses fall under this requirement, as does someone wishing to build a single-family residence on a single parcel that currently vacant. While it is important to track any additional water and sewer demand, the impact of these two conditions upon the water and sewer conveyance and treatment systems is typically negligible.

All applicants, including the two listed above would be required to submit information necessary for tracking usage and capacity, however exemptions are recommended for home occupation licenses and single family residential building permits.

STAFF RECOMMENDATION: Staff recommends approving the development regulations update.

MOTION: I move to approve the amendments to Appendix A – Developmental Regulations of the Code of Ordinances of the City of Villa Rica Georgia, Section IA, Section 200 (a) Exemptions.

CITY OF VILLA RICA , STATE OF GEORGIA

ORDINANCE

AN ORDINANCE TO AMEND SECTIONS 200, 202, 203 AND 212 OF APPENDIX A – DEVELOPMENTAL REGULATIONS OF THE CODE OF ORDINANCES OF THE CITY OF VILLA RICA, GEORGIA

WHEREAS, the City of Villa Rica is a municipal corporation duly chartered and incorporated in the State of Georgia; and

WHEREAS, the City Council determined a need to update their code of ordinances and after consideration of proposed changes and having duly noticing the proposed changes; and

NOW THEREFORE BE IT HEREBY ORDAINED by the City of Villa Rica Mayor and City Council as follows:

SECTION 1A.

The City of Villa Rica Code of Ordinances, Appendix A – Developmental Regulations, Section 200 is hereby amended as follows:

200. APPLICATION AND PLAN REVIEW GENERAL REQUIREMENTS

UTILITY AVAILABILITY STATEMENT.

- (A) The City shall not approve any applications for rezoning, annexation, special use permits, building permits, land disturbance permits or approve any new residential construction or any commercial development without a statement that adequate utility is available from the Utilities Director. Utility availability statements shall be valid for a period of one year from the date of its issuance and shall not be transferable.
- a. **Exemptions**
 - i. **Home occupation business license requests, employing no more than two individuals, are exempt from the requirement, unless the business, in the opinion of staff, constitutes a significant impact on the water and sewer utility conveyance and / or treatment systems.**
 - ii. **One (1) single-family residential unit to be constructed on one (1) parcel that is currently vacant is exempt from this requirement.**
- (B) Availability means that utility service is available to the property and that the service lines and facilities have adequate capacity to serve the development while still maintaining an appropriate level of service to the other users of the system. In making this determination, the city may consider both existing users and also users that have been approved for connection but have not yet done so. The Utilities Director may rely on qualified engineers and experts in making the determination of whether utility service is available and whether there is adequate capacity to serve for the proposed development.

-
- (i.) Water capacity analysis is a process where every new development which will require connection of its potable water service to the city water system is reviewed to determine whether or not the new development will meet the minimum fire flow and pressure requirement of 20 psi at the highest occupied elevation under normal usage conditions or cause some other proximate user's pressure to drop below 20 psi under normal usage conditions. All proposed fire hydrants shall be capable of delivering 1,000 gallons per minute (gpm) in residential neighborhoods and 1,500 gpm in commercial areas or as otherwise determined by the county fire marshal based upon the type of development.
- (a) The proposed water consumption flowrate(s) of the new development will be assumed to be equal to the average proposed sewage flows estimated per Georgia Manual for On-site Sewage Management Systems Table JT-1 with an appropriate peaking factor based on diurnal variations.
 - (b) The city's water system has been modeled with the use of a hydraulic modeling application. The proposed flowrates will be added to the model in order to calculate the residual pressure.
 - (c) If the new development's residual pressure does not meet the requirement of 20 psi at the highest occupied elevation under normal usage conditions, or, cannot meet the fire flow requirements set forth above, the analyzed water line will be assumed to be unsuitable for the new development. If the developer wants access, the developer may pay the city in an appropriate amount to upgrade to a new water line so as to provide adequate residual pressure.
- (ii) Sewer capacity analysis is a process where every new development which will require a connection of its sewer to the city's sewer system is reviewed to determine whether or not there is adequate capacity in the sewer system to convey the new sewage from proposed development to the WWTP.
- (a) The proposed flowrate(s) in gallons per day (gpd) of the new development will be calculated and peaked with a factor of 3. Sewage flows of new developments will be estimated per Georgia Manual for On-Site Sewage Management Systems Table JT-1.
 - (b) The existing flowrate(s) (gpd) and proposed flows that will flow into the same collection system as the new development will be calculated and peaked with a factor of 3. Existing flowrates will be estimated per Georgia Manual for On-Site Sewage Management Systems Table JT.
 - (c) The ratio between the sum of the peaked flowrates (proposed and existing) and the sewer line capacity will be analyzed to determine if 60 percent of the sewer line's capacity has been exceeded.
 - (d) If the new development's proposed flowrate does cause the projected flows in the sewer line to exceed the 60 percent capacity level, the sewer's capacity will be deemed inadequate for the new development.
 - (e) If the existing sewer does not have adequate capacity to convey the proposed flowrate, the developer may pay the amount to the city to upgrade the sewer so as to be able to provide adequate capacity.
- (C) City water and sewer service is provided to the residents and properties within the limits of Villa Rica service area for each as defined by the most recent Carroll County and Douglas County service delivery strategy agreements. New service of properties outside of the service area shall be allowed only with the express written consent of the city and the governing agency of the adjacent service delivery area.
- (D) In the event of a request for utility service at a location in which it has been determined that adequate service capacity is unavailable, the city may deny the issuance of any building or land disturbance permits or

may condition new utility connections on the payment by the user or developer of the cost of new or improved infrastructure required to serve the development.

- (E) In the event that the Utility Director determines that a utility is not available, the applicant may appeal the decision to the City Council. The City Council shall consider whatever evidence from the applicant and shall consider either the testimony or report from the Utility Director, or his/her designee, or both.
- (F) The Utility Director may issue a conditional availability letter, subject to approval by Council, when adequate utility is not available if the applicant presents a development agreement to the Utility Director that will be beneficial to the City, with respect to improvements to the City's utility capacity and/or conveyance, and said improvements will be paid for by the applicant or developer. A conditional availability letter must be approved by Council prior to the approval of any permits, rezonings or annexations.

200.1 Standard Operating Procedures for the project development process are included at the end of this section. (Section 212)

SECTION 1B.

The City of Villa Rica Code of Ordinances, Appendix A – Developmental Regulations, Section 202 is hereby amended as follows:

202. Plan Review Procedure.

Plan review procedures are dependent on the type of the proposed development. Plans may not be reviewed without a Utility Availability Statement as provided in Section 200. There are three types of developments as follows:
